About Michael ...

Michael is an international speaker, author and thought leader who also happens to be fully impotent as a result of prostate cancer. In turning what most would consider a huge tragedy into triumph, Michael considers his impotence to be one of the biggest blessings in his life. It is because of his impotence that he and his partner discovered an entirely new approach to experiencing levels of emotional and physical intimacy and connection that far exceeds anything either had prior to when things were working "correctly". It is his personal mission in

life to serve those who feel disconnected, in general or due to our culture's addiction to digital distraction, to reconnect in ways they didn't know were possible. Michael is also strategic consultant for startups and the CEO of RUSSEY Communications, a media communications and marketing firm and Founder of Heart Open LLC. His extensive media experience includes radio and TV interview, videos, voice-overs and articles for international publications.
